ASNA0079 — paired with NAS1721

Blind fastener paired with NAS1721 / AS64400 / AGS4720.

Engineering drawing · dimensions in inches

Specification

Item	Value
Type	Blind fastener
Status	Cross-only card: the partner numbers, evidence ranked, and no sizes. It does not decode: the digits after the first have no single rule.

Part numbers

not decoded 6 part numbers

Part no.
ASNA0079-411A
ASNA0079-413A
ASNA0079-520ALC
ASNA0079-613A
ASNA0079-613ALC
ASNA0079-621A

How to read the part number

Segment	Reads as	Unit of the code · from
ASNA0079 Standard	Blind fastener paired with NAS1721 / AS64400 / AGS4720.	None: the number of the standard · The standard
4 Diameter	Same diameter digit as its NAS partner; the unit is not given by the standard, so it is not converted here: read the size on the partner's own sheet.	Pairs with the NAS partner's digit (unit not given by the standard) · Not given by the standard: read through the NAS partner
11 Digits	Not decoded: 0079-411A pairs with grip 4, 413A with 5, 613A with 4, 621A with 8.	not given by the standard · Not decoded: the digits do not follow one rule
A Letters	A with NAS1721 H; C with NAS1720 C..W; D with ..P; LC/DLC with L in the NAS number.	Letter, no unit · Pairing with the NAS partner, as seen in the cross data

ASNA0079-411A reads: **ASNA0079** blind fastener · **4** NAS partner digit · **11** not decoded · **A** pairing letters.

Notes

- Part number: ASNA0079, a dash, three digits and letters. The first digit equals the NAS partner's diameter digit (4, 5, 6 = n/32 in, our reading).
- The next two digits are not decodable: for example 411A pairs with grip 4, 413A with 5, 613A with 4 and 621A with 8. They are shown undecoded on purpose.
- No sizes are given for these numbers: only the cross-reference is shown.
