Diamond-coated hole saw

For large holes in composite.

Specification

Item	Value
Type	Large-hole cutter
Point	—
Material	Diamond coating
Use for	Larger holes in composite
Do not use for	—

A dash means the sources do not state it.

Notes

- **Inch values are official.** Aviation is designed and worked in inches. Millimetres are converted and are not official; where one is shown, the metric drill is the nearest alternative, not the official drill.
- The FAA sources give no procedure for a hole saw in structural metal.
