NAS43 — spacer; DD chemical-film or gray anodized, HT heat-treated alloy steel

Spacer, Sleeve (types DD and HT): part numbers and the sizes commonly stocked.

NAS43

Specification

Item	Value
Type	Spacer
Material	DD: finish suffix FC (chemical film) or N (gray anodized); HT: heat-treated alloy steel
Status	Check the current issue before design use.

Part numbers

How to read the part number

Part	Meaning
Format	NAS43<type><dash>
DD	Type: Spacer, finish by suffix: FC chemical film, N gray anodized
HT	Type: Spacer, heat-treated alloy steel
Example	NAS43DD3-8FC — Type DD, for #8 and #10 screws, 1/8 in long, chemical film finish

Notes

- DD3 spacers are for #8 and #10 screws (diameters .164 and .190); DD4 spacers are for .250. Size column gives those diameters, in inches.
- In DD numbers the code before the finish letters is the length in 64ths of an inch, as listed.
- Lengths printed in the listing that do not agree with that rule are left blank rather than guessed (NAS43DD3-7FC and NAS43DD3-34FC).
- HT numbers are as listed: the first digit is the type and the rest the length code; confirm the dimensions in the standard.
